# INDUSTRIES

---

We are very focused on creating a hospitable environment for our clients. Managing your freight movements requires that we fully understand your industry. That's why we specialize in 7 core industries, providing us with the ability to offer true expertise, to meet your expectations. From our in-house IT systems to our tailor-made freight forwarding services, we do everything we can to set your shipment up for success. The industries we serve and the services we provide are listed below.

## THE INDUSTRIES WE SERVE

### DC GLOBAL FREIGHT MANAGEMENT

#### **OIL AND GAS**

Third-party logistics providers are essential to the gas and oil industry around the world. We work tirelessly to reduce the hassle and confusion surrounding freight shipments on a global scale. For example, shipping heavy gas equipment requires following a very strict set of safety guidelines. Dealing with the often chaotic price of oil and gas demands the most cost-effective logistics and shipping solutions. Partner with us for all your oil and gas freight solutions.

#### **AEROSPACE**

Transportation for the aerospace industry demands meticulous planning to include the safety and efficiency of moving raw materials and parts that serve this dynamic industry. OOG cargo including airframes and engines require careful transportation. OEM manufacturers, MRO providers, and airlines must work with knowledgeable and experienced logistics professionals to compete in their industry. We strive to be that company.

#### **AUTOMOTIVE**

When you need reliable transport for your automotive parts and vehicles, you can trust DC Global Freight Management. Many large parts have unique shipping requirements to meet. Understanding the logistics and documentation behind this process is critical for every shipment. You can rely on us to handle your automotive shipping freight needs and meet international standards.

## PETROCHEMICALS

Staying up to date on the latest and ever-changing state, federal, and international regulations surrounding the logistics of the chemical industry is a significant challenge. Everyone from truck drivers to freight forwarders must be trained to handle the chemicals they transport. We help ensure that your petrochemicals are transported correctly.

## CONSTRUCTION & MINING

We provide reliable transport for all your construction and mining heavy machinery and industrial goods around the world. Our logistic solutions for every facet of your industry ensures that your specialized equipment is shipped properly. We serve as your agent and trusted partner in all facets of your international freight needs.

## RENEWABLE ENERGIES

Renewable energies at the forefront of modern carbon-neutral energy supply represents its own logistical challenges due to the nature of the Cargo, we create a totally bespoke, reliable, and secure service for this industry using our expertise in specialist containers, chartering and out of gauge project services, ensuring a comprehensive, dynamic solution to this unique industry sector.

## DRIVEN BY EXCELLENCE

DC Global Freight is a leader in innovative cargo management concepts.
